Step 1.

Enter your 4-6 digit 'User ID' and 4 digit 'PIN' and select 'Login'.

The screenshot shows a login interface with a green background. At the top, there are two input fields: 'User ID:' containing '0001' and 'PIN:' containing '****'. To the right of the PIN field is the text 'Primary User Login'. Below these fields is a numeric keypad with buttons for digits 1-9, 0, and *, along with a 'Clear' button (marked with a blue 'X') and a 'Login' button (marked with a person icon and a checkmark). A back arrow button is located at the bottom left. At the bottom of the screen, a status bar reads '<Not Logged In> (16) Please enter UserID and PIN, then hit Login.'

Step 2.

Follow the instructions on the touchscreen.

The screenshot shows a card enrollment screen with a green background. At the top, it says 'User Name and ID #: UID = 1 (Smith, John)'. Below this is a block of text: 'Please scan your card and wait for the green square to appear below. After the first green square appears, scan the card a second time and wait for a second green square to appear next to it. If both green squares appear, then the card enrollment is complete. Select 'Done', or wait for the screen to timeout.' Below the text are two large green squares, one containing the letter 'O' and the other containing the letter 'K'. At the bottom, there is a 'Done' button and a back arrow button. At the very bottom, a status bar reads 'John Smith (15) Please scan card. (16 bytes)'

Please Note

Once your access card has been enrolled, you'll be able to use it to login to the KeyWatcher instead of your User ID and PIN.
