

KeySafe...

The affordable 24/7 Key Dispenser for Motels & Airbnb

Reliable & secure remote dispensing of keys

- Convenient, sturdy 3mm steel cabinet, secure KeySafe key dispenser is Australian made and available for 8, 16, 24, 32 and 48 keys.
- Intuitive and user friendly, KeySafe automatically dispenses a room key to guests via their code, eg mobile number or booking number ANYTIME!
- No computers required, KeySafe is easily programmed via the display panel, with easy DIY installation into 240V.
- A fully secure key cabinet, allowing the administrator to easily load keys, change codes and add keys.
- System software functions include: duplicated codes rejected, drop all keys at once plus show all codes & clear all codes.
- Unlike staff, KeySafe doesn't go on holidays or take sick leave. Its there for your convenience 24/7, without the stress!
- Optional features include back up battery, weather shield, tamper proof keyrings and seals to prevent key duplication, plus larger key cabinet configurations available on request.
- Also works with Secure Key Return Drop Box.

16-32 Key System

KeySafe works around the clock, when you can't.

The KeySafe units are cost effective and designed to the highest security standard. They allow the safe storage and release of keys to authorised persons without requiring a physical presence.

KeySafe is so practical and suited for other industry applications including:

Realestate Agents

Guest Houses

Serviced Apartments/Airbnb

Caravan Parks

Corporate Fleet Cars

Council Fleets

Rental Car Outlets

Aged Care Facilities

Mining Accomodation

Hotels

Resorts
